OBJECTIVE

As a self-taught web developer, I have invested significant time and effort into acquiring a comprehensive understanding of web development technologies and best practices. While I may not have formal academic qualifications, I have dedicated countless hours to self-study, building a robust portfolio of projects to showcase my abilities.

TECHNOLOGIES

- HTML
- CSS (Bootstrap, Saas, TailwindCSS)
- JavaScript (ReactJS)
- Git & GitHub

EDUCATION

FreeCodeCamp

- RESPONSIVE WEB

PROJECTS

BankIT-React

I have constructed and enhanced a professional landing page of a bank website, using React to create a seamless and responsive experience for potential customers.
